EDUCATION

Bachelor's Degree in
Networking and
Security

Sunway University
2025 - 2028

TECHNICAL SKILLS

Kirill Sadykov

IT Student | Networking & Security

Profile Summary

IT student at Sunway University specializing in Networking and Security, with hands-on experience building responsive web pages as part of the Dynamic Fitness platform project. Combines a foundation in secure network design with practical front-end development and database skills, and enjoys turning technical requirements into clean, working interfaces.

Project Experience

Homepage Design — Dynamic Fitness Platform

Built the site's homepage from scratch, including an animated hero section, a weekly class line-up grid, a scrolling results marquee, and the membership pricing section. Used CSS Grid and Flexbox throughout for a fully responsive layout.

About Us Page — Dynamic Fitness Platform

Designed the team page, including the member card grid with profile photos, names, and links to individual profile pages.

Light / Dark Theme Toggle

Implemented a site-wide light/dark mode toggle using CSS custom properties, switching background, text, and accent colors across every page with one click.

Key Achievements

- ✓ Delivered two full site pages (Homepage and About Us) from layout to final styling.
- ✓ Built a reusable light/dark theme system driven entirely by CSS variables.
- ✓ Combined coursework in networking & security with practical front-end delivery.

Interests
