ILYAS ISKANDAR BIN SAHRIZAM

Motivated IT student
specializing in Computer
Networking and Security with
hands-on experience in web
design, modular CSS, and
database management.
Passionate about building
secure, responsive web
platforms.

Skills

- Computer Networking & Security Protocols
- HTML5 & CSS3 Responsive Architecture
- JavaScript (DOM Manipulation & Filtering)
- Database Management (SQL & Oracle APEX)
- Creative Strategy Development
- Programming & Coding

Educational Background

SAM PAYA JARAS
Sijil Pelajaran Malaysia (SPM)

- (2019-2023)
- 8A 1B

Sunway College
Foundation in Arts

- (2024/2025)
- 3.87

Sunway University
BSc (Hons) Information Technology (Computer Networking and Security)
Expected Graduation: 2028

Experience / Key Projects

Dynamic Fitness Web Platform | Front-End & Features Lead

- Architected responsive web pages (booking.html, about.html) using HTML5, Flexbox, and CSS Grid.
- Built an interactive JavaScript class-filtering engine allowing users to filter workout schedules in real time.
- Implemented dark/light theme toggling using standard CSS variables and local storage persistence
- Integrated cross-component form auto-filling, connecting class booking cards directly to the reservation form.

Database Administration & SQL Development Project

- Designed and optimized multi-table relational database structures using SQL.
- Executed complex query filtering, table joins, and schema normalizations in Oracle APEX.

Training & Certifications

- Cisco Certified Network Associate
- Responsive Web Design Certification
- Cybersecurity Fundamentals Workshop
